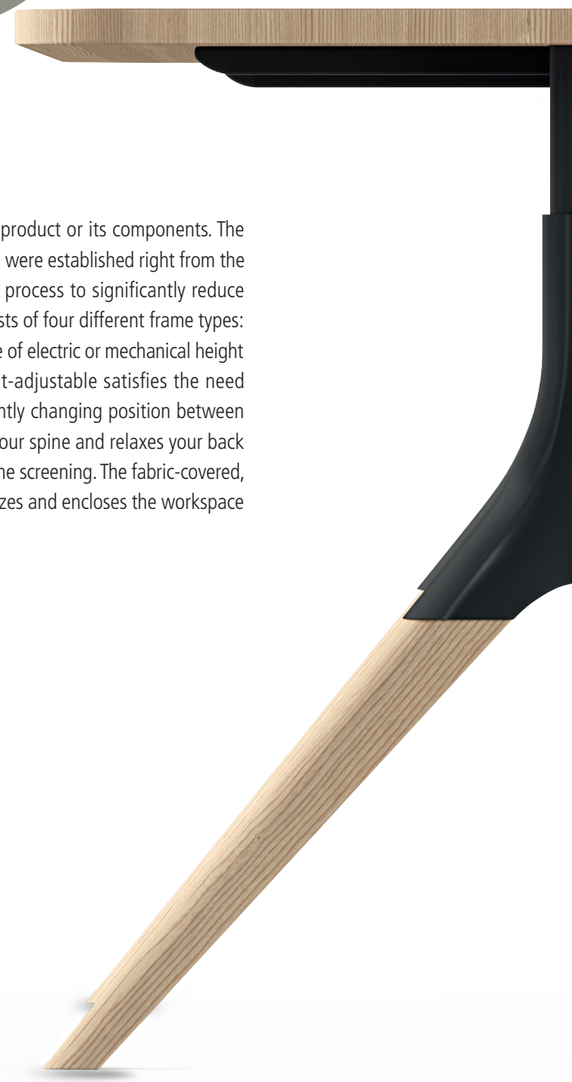
# furniloop

# Design meets responsibility.

office culture meets circular economy

The name ***furniloop*** symbolises the cycle of the product or its components. The prerequisites for refurbishing reusable components were established right from the product design stage. It is the goal of the design process to significantly reduce the consumption of material. The desk range consists of four different frame types: symmetrical and asymmetrical frames, with a choice of electric or mechanical height adjustment. The version that is electrically height-adjustable satisfies the need for ergonomic workplaces. This is because frequently changing position between dynamic sitting and standing takes the strain off your spine and relaxes your back muscles. Particular importance is also attached to the screening. The fabric-covered, pinnable privacy panel is offered in two different sizes and encloses the workspace on three sides.

Design: neunzig° design



# Rich in detail.

**Acoustically effective privacy panel** made of recycled polyester fibres.

**Textile cable duct** with a homely feel for easily accommodating excess cable lengths.

**With optional electric height adjustment** enabling a quick change between a sitting position and standing.

**Table top** also available as a high-quality solid wooden top.

**Utensil drawer** made from recycled polyester fibres with a felt look.

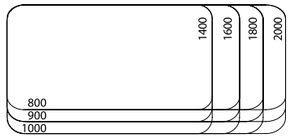
# Optional.

Rectangular table symmetrical frame

table height: 680 to 780 mm
manually height-adjustable

Rectangular table symmetrical frame

table height: 650 to 1290 mm
infinitely electrically height-adjustable



Rectangular table

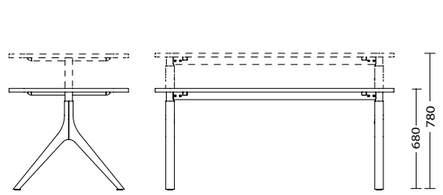


Table height manually adjustable

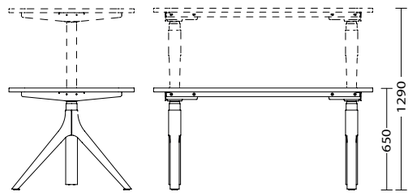

Table height electrically adjustable

Dimensions in mm

**Standard model:**

**Table top:** Choice of laminate (MFC) or HPL top with seamless, moisture resistant laser edge (ABS edge), veneer with laminated wood edge, table top made of oiled solid oak with bevelled front edge, or compact top. Stained wood surfaces.

**Symmetrical frame, manually height adjustable** (680 – 780 mm):
Cross beam tubular steel construction, steel frame, column 58 mm Ø, adjustable plastic glides, black. Powder-coated metal surfaces.
Optional: cantilever foot made of solid oak.

**Symmetrical frame, electrically height adjustable** (650 – 1290 mm):
Cross beam tubular steel construction, steel frame, column 75 mm Ø. Metal surfaces powder-coated. Adjustable plastic glides, black. Telescopic column either 55 eloxal silver, 9005M pitch black or 9016 white powder-coated.

**Electric cabling** (optional):
**Round cable grommet:**
80 mm Ø, plastic, silver, black, white or stainless steel effect.
**Cable grommet *Circle80 Access:***
80 mm Ø, 2 openings to insert cover plates (opitonal), black or white plastic.

**Built-in socket *Circle80:***
80 mm Ø, 1 x Schuko, 1 x double USB charger type A + C, permanently fixed power cable (1 m, GST18 plug), cable outlet with integrated slider for cable locking, 1 opening to insert cover plates (optional), black, white or stainless steel effect plastic.
**Important note:** cables for wiring under the table are not included in the scope of delivery.
**Horizontal cable channel:** textile cable channel, anthracite, black metal mount.

**Accessories** (optional):
**Screen:**
Fabric-covered panel in lightweight construction. Mechanically and thermally bonded polyester fleece (up to 70 % recycled material), suitable for use as a pinboard, and sound-absorbing (acoustic measurement according to ISO 354). Attached to the table top using a steel bracket, black powder-coated, and a handwheel. Height either 400 or 680 mm (table top edge – top edge screen). The screen can be slid backwards for access to cable outlets and cable channels.

**Stationery drawer**: Made of mechanically and thermally bonded polyester fleece with a felt look (70 % recycled material), dark grey.

coming soon

SAME FEATURES, DIFFERENT DESIGN:

THE SYMMETRICAL FRAME WITH MANUAL HEIGHT ADJUSTMENT WILL ALSO BE AVAILABLE WITH CANTILEVER FOOT IN SOLID OAK. FROM Q 3 2023 THE PRODUCT FAMILY WILL BE EXPANDED WITH MODELS WITH ASYMMETRIC FRAME.
